

D' Econo-Space

Complete Operations Handbook

Live site: d-econo-space-agus.vercel.app · Property: Basak Agus Rd, Gisi, Lapu-Lapu, Cebu · Email: d.econospace.ceb@gmail.com

Contents

Part A — Guest Experience

- A1. Booking a Room
- A2. Volunteer Rates (JW & A2/A19)
- A3. Completing Payment
- A4. Cancellation
- A5. Donating
- A6. Sharing a Story

Part B — Staff / Assistant Operations

- B1. Tools You Use
- B2. Booking Workflow (New → Checked-out)
- B3. Email Templates
- B4. Handling Messenger
- B5. Weekly JW Question Update

Part C — Admin Panel

- C1. Accessing the Admin Panel
- C2. Blocking Dates
- C3. Room Availability Toggle

Part D — Technical Reference

- D1. All Pages & URLs
- D2. Room Rates (Full Table)
- D3. Webhooks & Payloads
- D4. Config Keys
- D5. Google Sheet Structure
- D6. Local Storage & Session Storage

- D7. Validation Rules

PART A — GUEST EXPERIENCE

A1. Booking a Room

Guests visit **d-econo-space-agus.vercel.app** and click **Book a Room** or any *Book* button on the homepage. They fill out a single form at `booking.html`.

Fields on the Booking Form

Field	Required?	Notes
First Name	Yes	
Last Name	Yes	
Mobile Number	Yes	Format: 09171234567
Email Address	Yes	Required for booking confirmation and cancellation link
Are you a volunteer?	No	Checkboxes: JW · A2/A19 — unlocks lower rates when verified
Room	Yes	D1 · D2 · D' Whole Space
Check-in Date	Yes	Min = today
Check-out Date	Yes	Min = check-in + 1 day
Number of Guests	Yes	Populated after room is selected; limits enforced per room
Solo Share Waitlist	No	Shown only for D1/D2 with 1–3 guests. If two solo guests match dates, both can share and split the cost.
Who told you about us?	No	Full name of referrer
Special Requests	No	Early check-in, extra blanket, etc.

What happens after Submit

- 1 Form validates all required fields and checks date conflicts against existing bookings and admin-blocked dates.
 - 2 Booking is posted to Make.com webhook → GHL contact created/updated → row inserted in the DES Bookings sheet.
- Guest is redirected to `payment.html` to complete payment.

Room Capacity Rules

- **Room D1:** up to 4 guests (AC)
- **Room D2:** up to 4 guests (Fan) — *can only be booked when D1 is occupied or blocked for the same dates*
- **D' Whole Space:** up to 8 guests — exclusive for 5+ guests (no other bookings alongside)
- If booking 5+ guests for D1 + D2, the site recommends switching to D' Whole Space

D2 Rule: If a guest tries to book Room D2 and Room D1 has no existing booking for those dates, the form will show a warning and block submission. They must book D1 first or contact the team.

A2. Volunteer Rates (JW & A2/A19)

Volunteer rates are unlocked directly on the booking form. Two types are supported.

JW (Jehovah's Witness) Rate

- 1 Guest checks "*I am a Jehovah's Witness (JW)*" on the booking form.
- 2 A verification panel appears with this week's question: "*What is the [first/last] midweek song for the week of [dates]?*"
- 3 Guest enters the song number. If correct, the JW rate is applied and the price updates instantly.

The question and answer are updated every Monday from the **Settings tab** of the DES Bookings Sheet. See [B5](#) for the weekly update procedure.

A2/A19 Rate

- 1 Guest checks "*I am an A2 / A19 Volunteer*".
- 2 A panel appears asking for their A2/A19 account number (exactly 7 digits, numeric only).
- 3 If the format is valid, the A2/A19 rate is applied automatically.

The system only verifies the *format* (7 digits) — not the actual account. The honor system applies. Admin can follow up via the booking record if needed.

Volunteer Rates Modal (on the homepage)

Each room card on the homepage has a "*JW or A2/A19? There's a special rate for you →*" badge. Clicking it opens a modal showing the full rate table for that room. Guests can verify right there and then be sent to the booking form with their rate pre-applied.

The modal also has a "**Give a donation instead** →" link for volunteers who want to donate rather than book.

Voucher Path (alternative)

Guests who want their rate confirmed before booking can go to `voucher.html` via "Volunteer? Get Your Code". This 3-step flow collects their info, verifies their eligibility, and generates a reference code they bring to the booking form.

- **Step 1:** Personal info — name, mobile, congregation, municipality, province
- **Step 2:** Choose rate type — JW or A2/A19
- **Step 3 (JW):** Answer the weekly midweek song question
- **Step 3 (A2/A19):** Answer JW question → identify the Bible book → enter account number or verify by email (code is `ISA6:8`)

On success, they receive a reference code (`REF-[timestamp]`) and the submission is posted to the admin webhook with tags `DES-voucher-pending` and `DES-JW` or `DES-A2A19` .

A3. Completing Payment

After booking, the guest lands on `payment.html` . The flow depends on whether they are a regular guest or a volunteer needing discount verification.

For regular guests

- 1 Payment methods are shown immediately: **GCash · Maya · Bank / InstaPay**.
- 2 Guest taps a method → QR code appears showing the exact amount to send.
- 3 Guest scans QR in their app and sends the payment.
- 4 Guest sends their payment screenshot via **Facebook Messenger** to the D' Econo-Space page.
- 5 Staff confirms receipt, logs the payment in the sheet, and sends the keyholder PIN via Messenger.

For JW/A2/A19 guests (not yet verified)

If they didn't verify on the booking form, a verification step appears first (same JW question or A2/A19 account number) before the payment methods are shown.

Check-in & Check-out times

- **Check-in:** 2:00 PM
 - **Check-out:** 12:00 NN (noon)
-

A4. Cancellation

Self-service cancellation is available through a link on the booking confirmation page ([thankyou-booking.html](#)).

Cancellation window

Deadline: 12 hours before 2:00 PM check-in — i.e., by 2:00 AM of the check-in date. After that, the self-serve option is no longer shown. Guests must contact the team directly for late cancellations.

How to cancel (guest side)

- 1 Guest opens their confirmation page or the cancel link in their confirmation email.
- 2 The cancel page ([cancel.html](#)) shows their booking summary and a reason dropdown.
- 3 They select a reason and confirm. Options: Wrong dates · Change of plans · Found other accommodation · Personal emergency · Other.
- 4 The cancellation is posted to the Make.com webhook with `action: 'cancel'` and the tag `DES-cancelled` . The booking row in the sheet is updated.
- 5 A success page confirms cancellation and offers a link to re-book.

There is currently no automated refund. Staff must handle refunds manually based on the cancellation reason and timing.

A5. Donating

Any guest or visitor can donate at [donate.html](#) , reached from multiple homepage links: "Support someone's stay.", "Donate Now" button, footer link, and the "Give a donation instead →" button in the volunteer rates modal.

Two donation paths

Option A — Reserve a Room and Donate

"Whether you're giving what you're able or more than the listed rate — book your room and let your heart lead."

Clicking this sends the guest to [booking.html?donation=1](#) — the normal booking form, tagged as a donation-reservation so the admin sees it in the sheet.

Option B — Give a Gift (no reservation)

For good samaritans who want to sponsor a volunteer's stay without booking for themselves.

- 1 Guest chooses a payment method: **GCash · Maya · Bank / InstaPay · Wise.**
- 2 A QR code appears (or Wise link for international). Guest scans and sends any amount they choose.

- 3 Guest enters their **Name** and **Mobile number** (the only info required — no email, no purpose, no amount asked).
- 4 They click Done → webhook fires → Thank You screen appears.

Wise opens in a new tab. The guest enters their name/mobile first, then is taken to the Wise payment link. After paying, they return and see the Thank You screen.

A6. Sharing a Story

Past guests and volunteers can submit their experience at [stories.html](#).

Field	Required?	Notes
Your Name	Yes	
Where are you from?	Yes	City / province
When did you stay?	No	e.g. "June 2026"
Your Story	Yes	Minimum 30 characters
How did you hear about us?	No	

On submit, the story is tagged **DES-story-pending** and sent to the admin webhook. Once reviewed and approved (by adding it to the Stories tab of the Google Sheet), it appears in the story gallery automatically.

PART B — STAFF / ASSISTANT OPERATIONS

B1. Tools You Use

Tool	Access	Purpose
DES Bookings Sheet	Link shared by the owner	Every booking appears here. Your command center — update Status, log payments, see all data.
DES Gmail	mail.google.com — sign in as d.econospace.ceb@gmail.com	Send confirmation, payment received, and decline emails to guests.
Facebook Messenger	D' Econo-Space near CBEC Page → Messages	Guests send payment screenshots here. You reply with the keyholder PIN after verifying payment.

Booking website (reference)	d-econo-space-agus.vercel.app	Where guests book. You do not edit this — good to know it exists so you can guide guests.
Admin Panel	d-econo-space-agus.vercel.app/admin.html	Block unavailable dates, toggle room availability. See Part C .

You do **not** need GoHighLevel or any other system for day-to-day operations. The Sheet and Gmail are enough.

B2. Booking Workflow

Every booking moves through these statuses in the sheet:

① New booking arrives — Status = New

- 1 Check for date conflicts.** Scan the sheet for the same Room with overlapping dates in any Confirmed or Paid row. If none → proceed to confirm.
- 2 Confirm:** Click the Status cell → select Confirmed. Send the **Confirmation Email** (template in [B3](#)).
- 3 If there is a conflict:** Set status to Declined. Send the Decline email. (See ④ below.)

② Guest pays

- 1** Guest sends a payment screenshot via **Facebook Messenger**.
- 2** Check: does the **amount** match the booking total? Does the **sender name** match?
- 3** In the booking row, fill in: **Amount Paid · Payment Method · Payment Reference No.**
- 4** Set Status → Paid. Send the **Payment Received** email.
- 5** Send the guest the **keyholder PIN** via Messenger so they can check in independently.

③ Check-in day

- 1** On the check-in date, update Status → Checked-in.
- 2** If the guest messages about access, confirm their PIN or assist as needed.

④ Check-out day

- 1** After 12:00 NN on the check-out date, update Status → Checked-out.

⑤ Cancellations

- **Guest-initiated (self-serve):** The system automatically posts a cancellation to Make.com and the sheet updates. Verify the row and mark it **Cancelled** if not already done.
- **Admin-initiated:** Update Status → **Cancelled** and send the guest a message via Messenger or email explaining the reason.
- **Declined (date conflict):** Status → **Declined**. Send the Decline email.

B3. Email Templates

Open DES Gmail → Compose → paste the template → fill in [brackets] → send to the guest's email (Column G of the sheet).

✉ Confirmation Email

Subject: Your Reservation is Confirmed — D' Econo-Space

Hi **[First Name]**,

Good news — your reservation at D' Econo-Space is confirmed!

Booking Details

Room: **[Room]**

Check-in: **[Date]** at 2:00 PM

Check-out: **[Date]** at 12:00 NN

Guests: **[Number]**

Total: ₱**[Amount]**

Payment: Full payment is required before or upon arrival. You may pay via GCash, Maya, or Bank/InstaPay — just send us a screenshot of your payment on Messenger.

Address: Basak Agus Rd, Gisi, Lapu-Lapu, 6015 Cebu · Landmark: Next to Mariel Carinderia (Google: Junrey's Store) and Triad Carwash

Questions? Message us anytime, or call 0917.678.4871 / 0926.149.9002.

See you soon!

— D' Econo-Space Team

✉ Payment Received Email

Subject: Payment Received — You're All Set! — D' Econo-Space

Hi **[First Name]**,

We've received your payment of ₱**[Amount]** — thank you! Your stay is confirmed and all set.

Room: **[Room]** · Check-in **[Date]** 2:00 PM · Check-out **[Date]** 12:00 NN

We look forward to welcoming you. Safe travels!

— D' Econo-Space Team

✉ Decline Email (date conflict)

Subject: Regarding Your Booking Request — D' Econo-Space

Hi **[First Name]**,

Thank you for your interest in D' Econo-Space. Unfortunately, we're unable to accommodate your request for **[dates]** — the room is already reserved for those dates.

We'd love to host you another time. Feel free to check other available dates on our site or message us directly.

— D' Econo-Space Team

✉ Cancellation Acknowledgement

Subject: Booking Cancelled — D' Econo-Space

Hi **[First Name]**,

We've received your cancellation request for your stay at D' Econo-Space ([dates], [Room]). Your booking has been cancelled.

We hope to welcome you another time. If you'd like to rebook, visit d-econo-space-agus.vercel.app anytime.

— D' Econo-Space Team

B4. Handling Messenger

Guests reach you through the **D' Econo-Space near CBEC** Facebook Page inbox. Common messages and how to respond:

What the guest says	What you do
"Is [date] available for [room]?"	Check the sheet for that room + dates. Reply with yes/no and direct them to book on the website if available.
"I already paid" (with screenshot)	Verify amount and sender name. Log in the sheet. Set Status → Paid. Send the keyholder PIN.
"I want to cancel"	Ask them to use the cancellation link on their confirmation page, or update the sheet manually and send the Cancellation Acknowledgement email.

"Can I change my dates?"	Check the new dates for availability. If free, update the booking row (dates, total price) and re-confirm via email.
"Can I add more guests?"	Check the new guest count is within room capacity. Recalculate the total and update the sheet. Re-send Confirmation email with new total.
Special request (early check-in, etc.)	Note it in the sheet's Special Requests column. Coordinate with the keyholder. Reply to the guest when confirmed.

When unsure — a double-booking, a payment mismatch, a special situation — don't guess. Say *"Let me check and get back to you shortly."* Then ask the owner.

B5. Weekly JW Question Update

Every **Monday**, update the JW verification question so genuine volunteers aren't rejected. This takes under 2 minutes.

- 1 Find this week's **midweek song number** — check wol.jw.org → *This Week at a Glance* → Midweek Meeting program, or get it from the owner.
- 2 Open the **DES - Bookings Google Sheet** → click the **Settings** tab.
- 3 Update the two cells:
 - **JW_QUESTION** → e.g. *What is the first midweek song for the week of June 16–22?*
 - **JW_ANSWER** → e.g. *18*
- 4 Save (auto-saves in Sheets). The booking site picks it up within a few minutes — no deploy needed.

⚠ If you skip a Monday update, real JW volunteers who enter the correct current song will be wrongly rejected. Set a recurring Monday reminder.

PART C — ADMIN PANEL

C1. Accessing the Admin Panel

The admin panel is a password-protected page for managing room availability and date blocks.

- **URL:** `d-econo-space-agus.vercel.app/admin.html`
- **Password:** `1992`

Once authenticated, the session is held in `sessionStorage` — closing the browser tab logs you out automatically.

C2. Blocking Dates

Use date blocks to prevent guests from booking during maintenance, private events, or periods when the space is unavailable.

Adding a block

- 1 Open the admin panel → **Add Date Block** form.
- 2 Select **Room**: D1 · D2 · Both rooms.
- 3 Enter **Start Date**. Enter **End Date** (leave blank for a single-day block).
- 4 Enter an optional **Reason** (e.g. "Maintenance", "Owner private use").
- 5 Click **Add Block**. The admin webhook (`action: addBlock`) posts to the Apps Script, which writes to the **Blocked Dates tab** of the Google Sheet.
- 6 The booking site reads that tab (published as CSV) on every page load — blocks are active within minutes.

Removing a block

The admin panel lists all active blocks. Click **Remove** next to a block. The webhook fires `action: removeBlock` and the row is deleted from the Blocked Dates tab.

Block scope rules

Room selected	Effect on booking form
D1	D1 only is blocked for those dates
D2	D2 only is blocked
Both	Both D1 and D2 are blocked; D' Whole Space also becomes unavailable

C3. Room Availability Toggle

The admin panel shows a live status card for each room. If a room is free, a **Mark Unavailable** button appears. If a room is currently blocked, a **Mark Available** button appears to remove today's block.

This is a quick toggle for urgent same-day changes — the full date-range blocking form in C2 is used for planned closures.

D1. All Pages & URLs

Page	URL (relative)	Purpose
Homepage	/index.html	Landing page — story, rooms, rates, amenities, location, all CTAs
Booking Form	/booking.html	Main reservation form with volunteer verification
Payment	/payment.html	QR payment flow after booking (booking + donation paths)
Donation	/donate.html	Two-path donation chooser → payment methods → thank you
Voucher Request	/voucher.html	3-step volunteer rate verification + reference code generator
Thank You — Booking	/thankyou-booking.html	Post-booking confirmation with cancel link
Thank You — Payment	/thankyou-voucher.html	Post-payment confirmation with next-steps
Cancel Booking	/cancel.html	Self-serve cancellation (within 12h window)
Stories	/stories.html	Volunteer story gallery + story submission form
Admin Panel	/admin.html	Password-gated: block dates, toggle room availability
Handbook	/handbook.html	This document

D2. Room Rates (Full Table)

Rates are **per room, per night**. Price calculation: $\text{rate}[\text{guests}] \times \text{nights}$.

Room D1 — AC (up to 4 guests)

Guests	Regular	JW	A2/A19
1	₱650	₱500	₱400
2	₱650	₱600	₱550
3	₱850	₱750	₱700

4	₱950	₱900	₱850
---	------	------	------

Room D2 — Fan (up to 4 guests)

Guests	Regular	JW	A2/A19
1	₱550	₱400	₱350
2	₱600	₱550	₱500
3	₱750	₱650	₱600
4	₱800	₱750	₱700

D' Whole Space — Exclusive (up to 8 guests)

Guests	Regular	JW	A2/A19
1–5	₱1,700	₱1,500	₱1,400
6–7	₱1,800	₱1,650	₱1,550
8	₱1,900	₱1,800	₱1,700
9+	Contact support team		

Rates are defined in two places in the codebase and must stay in sync: `js/booking.js` (RATES — used for price calculation) and `index.html` (VOL_RATES — used for the volunteer modal display).

D3. Webhooks & Payloads

1. WEBHOOK_BOOKING (Make.com)

Triggered by: Booking form submit (`booking.html`).

Destination: Make.com → creates/updates GHL contact → inserts row in DES Bookings sheet.

```
{
  firstName, lastName, name,
  mobile, email,
  room,           // d1 | d2 | whole
  checkin,        // YYYY-MM-DD
  checkout,       // YYYY-MM-DD
  guests,
  discountType,   // regular | jw | a2a19
  referral,
  specialRequests,
  totalPrice,
```

```

    nights,
    rateType,      // regular | jw | a2a19
    shareWaitlist, // 'yes' or ''
    bookingType,   // 'donation-reservation' or ''
    tags           // e.g. 'DES,DES-booked,DES-d1,DES-share-waitlist'
  }

```

2. WEBHOOK_CANCELLATION (Make.com)

Triggered by: Guest submits cancellation form (`cancel.html`).

Destination: Make.com → updates GHL contact → applies DES-cancelled tag.

```

{
  action:  'cancel',
  name, email,
  room, checkin, checkout,
  reason,  // Wrong dates | Change of plans | Found other accommodation | Personal emergency
  tags:    'DES,DES-cancelled'
}

```

3. WEBHOOK_DONATION (Apps Script)

Triggered by: Donation form submit (`donate.html` / `js/donate.js`).

Routing: `action: 'donation'` .

```

{
  action:      'donation',
  name,
  mobile,
  paymentMethod, // GCash | Maya | Bank / InstaPay | Wise
  room,         // if coming from volunteer rates modal (d1 | d2 | whole | '')
  tags:         'DES,DES-donation'
}

```

4. WEBHOOK_VOUCHER (Apps Script)

Triggered by: Voucher request form submit (`voucher.html`).

```

{
  name, mobile, congregation, municipality, province,
  rateType,      // jw | a2a19
  idNumber,      // 7-digit account (if A2/A19 code path)
  answer,        // JW question answer
  email,
  voucherMethod, // email | code
  refCode,       // 'REF-' + timestamp
  tags           // 'DES,DES-voucher-pending,DES-JW' or 'DES-A2A19'
}

```

5. WEBHOOK_ADMIN (Apps Script)

Triggered by: Admin panel actions (`admin.html`) + abandoned booking beacon.

```
// Add a date block
{ action: 'addBlock',    room, startDate, endDate, reason }

// Remove a date block
{ action: 'removeBlock', room, startDate, endDate }

// Abandoned booking (fires on page unload if form not submitted)
{ action: 'bookingAbandoned', name, mobile, room, checkin, checkout, totalPrice }
```

6. WEBHOOK_STORY (Apps Script)

Triggered by: Story submission form (`stories.html`).

```
{
  action:  'story',
  name, location, period, story, source,
  tags:    'DES,DES-story-pending'
}
```

Webhooks 3–6 all post to the same Apps Script URL and are routed by the `action` field. Only WEBHOOK_BOOKING and WEBHOOK_CANCELLATION go to Make.com.

D4. Config Keys

All configuration lives in `js/config.js` . Never hardcode values elsewhere.

Key	Purpose	Source
<code>WEBHOOK_BOOKING</code>	Make.com — booking submissions	Make.com webhook URL
<code>WEBHOOK_VOUCHER</code>	Apps Script — voucher + donation + story + admin	Apps Script deployment URL
<code>WEBHOOK_CANCELLATION</code>	Make.com — cancellations	Make.com webhook URL
<code>WEBHOOK_DONATION</code>	Apps Script — pure donation submissions	Same URL as WEBHOOK_VOUCHER
<code>WEBHOOK_ADMIN</code>	Apps Script — date blocks + abandoned bookings	Same URL as WEBHOOK_VOUCHER
<code>WEBHOOK_STORY</code>	Apps Script — story submissions	Same URL as WEBHOOK_VOUCHER
<code>LOCATION_ID</code>	GHL sub-account ID	GHL Settings

PIPELINE_ID	GHL pipeline for DES bookings	GHL pipeline settings
STAGE.*	GHL stage IDs (Inquiry, VoucherRequest, Booked, CheckedIn, CheckedOut)	GHL pipeline stages
PROPERTY_EMAIL	d.econospace.cebuc@gmail.com	Fixed
MAPS_URL	Google Maps link to the property	Fixed
PHONE_1 / PHONE_2	0917.678.4871 / 0926.149.9002	Fixed
PAX_OVERRIDES	Override max guests per room per date (e.g. reduce D2 to 2 on a specific date)	Set manually in config.js
ADMIN_PASSWORD	Password for admin.html — currently 1992	Set in config.js
BLOCKED_DATES_CSV_URL	Published CSV URL of the "Blocked Dates" tab in the Google Sheet	Sheets → Publish to web
SETTINGS_CSV_URL	Published CSV URL of the "Settings" tab (JW question/answer)	Sheets → Publish to web
STORIES_CSV_URL	Published CSV URL of the "Stories" tab	Sheets → Publish to web
QR_GCASH	Path to GCash QR image	assets/qr-gcash.png
QR_MAYA	Path to Maya QR image	assets/qr-maya.png
QR_BANK	Path to Bank/InstaPay QR image	assets/qr-gcash.png (reuses GCash — update when bank QR is uploaded)
LINK_WISE	Wise payment link	https://wise.com/pay/me/glezzendab
JW_QUESTION	Fallback JW question (used if SETTINGS_CSV_URL is unreachable)	Updated weekly via Settings tab
JW_ANSWER	Fallback JW answer	Updated weekly via Settings tab

D5. Google Sheet Structure

Tab	Who writes to it	Who reads it	Contents
-----	------------------	--------------	----------

DES - Bookings	Make.com (on every booking submit)	Staff (via browser)	One row per booking: name, mobile, email, room, dates, guests, rate, total, status, payment details, tags
Blocked Dates	Apps Script (addBlock/removeBlock from admin panel)	booking.html (fetches CSV on load)	Columns: room, startDate, endDate, reason
Settings	Staff (manually every Monday)	settings.js (fetches CSV on every page load)	Key-value pairs: JW_QUESTION, JW_ANSWER
Stories	Apps Script (on story submit) + owner (to approve/publish)	stories.html (fetches CSV for gallery)	Columns: Name, Location, Period, Story

Published as CSV: The Blocked Dates, Settings, and Stories tabs must be published via *File* → *Share* → *Publish to web* → CSV. The booking site fetches these directly — they are not fetched via API. If a published CSV URL changes, update `config.js`.

D6. Local Storage & Session Storage

Key	Storage	Purpose
<code>des_bookings</code>	localStorage	Cache of submitted bookings — used by booking.html to detect date conflicts on the client side
<code>des_admin_auth</code>	sessionStorage	Admin panel session flag — set to <code>'1'</code> on correct password; cleared on tab close
<code>des_voucher_approved</code>	sessionStorage	Pre-fills the booking form after successful voucher verification (name, mobile, rate type)
<code>des_booking_summary</code>	sessionStorage	Carries booking details from booking.html → payment.html → thank-you pages

D7. Validation Rules

Field / Rule	Constraint
A2/A19 Account Number	Exactly 7 digits — regex <code>/^\d{7}\$/</code>

A2/A19 Voucher Code (email path)	Must be ISA6:8 (hardcoded — Isaiah 6:8)
Room D1 max guests	4 (can be reduced per date via PAX_OVERRIDES in config)
Room D2 max guests	4
Whole Space max guests	8 (9+ shown as "Contact support team")
Room D2 dependency	D2 can only be booked when D1 is occupied or blocked for same dates
Whole Space exclusive rule	5+ guests = fully exclusive; no other bookings alongside
Share Waitlist eligibility	D1 or D2 only · 1–3 guests only
Cancellation deadline	12 hours before 2:00 PM check-in (i.e. 2:00 AM on check-in date)
Story minimum length	30 characters
JW question	Pulled live from Settings CSV; falls back to CONFIG.JW_QUESTION if unreachable
Admin password	1992 (set in CONFIG.ADMIN_PASSWORD)
